

Dolores Ashcroft-Nowicki Workshop Intensive

THE FOUR HOLY CREATURES OF THE QABALAH

The four symbols of the Bull, the Eagle, the Lion and the Man have been known and used for thousands of years, beginning with the vision of Ezekiel in the Old Testament. But even individually they have been used as symbols of power materially and magically.

Each will in turn become the symbol for an Age of the earth as it travels through the Great Wheel of the Zodiac, each age lasting just over 2,500 years. The Age of Cancer might well have been the age of Atlantis the great sea-going power drowned by its own ambitions. The Age of Gemini brought the Twin Gods of Isis and Osiris to the fore. The Age of Taurus saw the Bull raised to the status of a Godlike creatures and is the Age we know most about as recorded history begins around the same time. Then came Pisces and now Aquarius sees the rise of the Winged Man. If we go back far enough we can see the Age of the Lion would have been around 12,500 years ago. And Ezekiel would have had his moment of realisation during the Age of the Winged Bull.

Each one of the Creatures has its place as one of the Fixed Signs of the Zodiac. They are stabilisers for Humanity. When such an Age comes around we tend to take stock of where we are in our evolution. We are in the process of doing that now... if we don't get it right soon, we may not see the Age of Capricorn at all!!

In this workshop we will look at all aspects of these ancient symbols including where they touch our own personal lives. They touch us on all levels. Physical, astral, mental and spiritual, and we can, if we wish place ourselves in the shoes of Ezekiel and experience our own personal revelation as we try to see with his eyes but with our wider knowledge and greater understanding.
